VACUTRON SUCTION REGULATORS by Allied

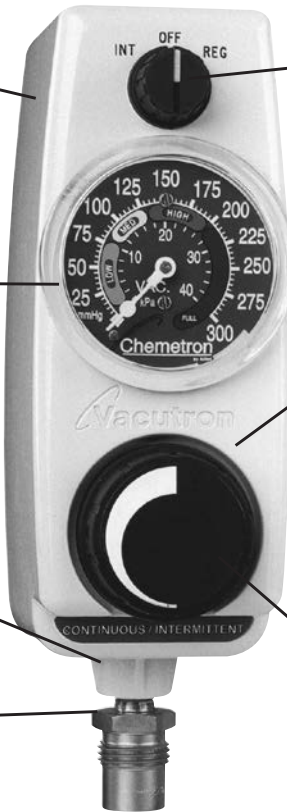

The new, sleekly contoured Vacutron[®] is a precision engineered instrument that combines the most desirable features for suction regulators. Smaller in size, but big on benefits, it offers advantages that include:

Slimmer line saves space, yet model is more durable than ever.

Color-coded glow-in-the-dark gauge face provides easy readability under any conditions. Gauge is secured by a screw for durability.

Weight-bearing brass post prevents case from cracking. Various inlet and outlet fittings insure compatibility with existing fixtures in any medical facility.

DISS fitting (can be ordered with a tubing nipple)

Easy access ON/OFF *Soft-Touch* knob gives full-line capability on the surgical model.

Maintenance is easy. Clean by flushing with cold sterilant.

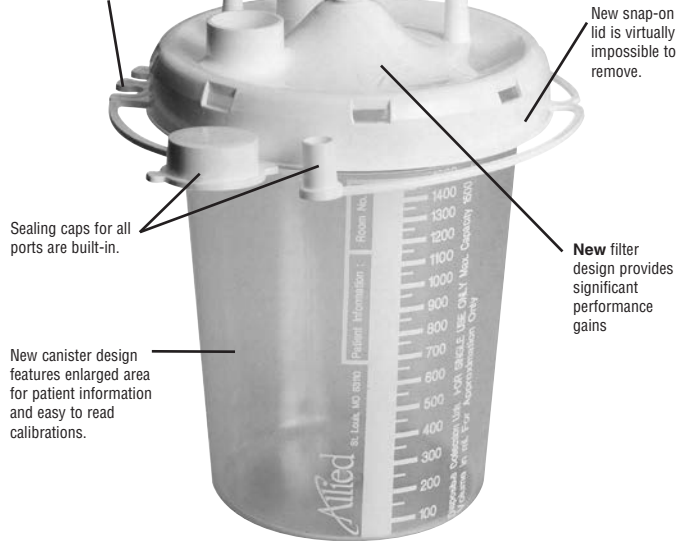

0-200 mmHg is achieved easily with minimal turning of the knob. Vacuum-limiting valve on the continuous model limits vacuum at 300 mmHg to prevent potential tissue damage.

New larger *Soft-Touch* knob for quick, fumble-free action. Exposed bottom allows thumb-wheel adjustment. Oversized knob for easy operation.

Collection Canisters

Built-in tubing hooks eliminate the need to wrap excess tubing around regulator, preventing kinks and occlusions.

Unique DISS connection accessory allows canister to attach directly to most suction regulators.

New snap-on lid is virtually impossible to remove.

Sealing caps for all ports are built-in.

New filter design provides significant performance gains

New canister design features enlarged area for patient information and easy to read calibrations.

Disposable Collection Canisters

Size	Outlet	Units/Case	Part Number	Price

Vac Trap

PM9003

The Vac Trap protects suction regulators and central vacuum systems from accidental contamination by liquid overflow from suction collection canisters.

This unique design assures positive shut-off at low as well as line vacuum conditions.

EZ VAC ASPIRATOR – by Precision Medical

- Hydrophobic Filter Protection System
- Five (5) Year Warranty
- 1/5 Horsepower
- Hosp. grade plug
- 800CC and 1200CC Canisters
- Non-marring Suction Feet
- 120V/60 Hz motor
- 0-27" Hg Vacuum range

The EZ Vac portable aspirator can be used on crash carts and for wall suction backup.

TO ORDER

Use the chart below to determine the inlet and outlet adapters you will need for your facility to obtain the proper part number.

ie: PM3005 - 2 mode regulator with Chemetron Quick Connect and tubing nipple.

Features:

- Compact and lightweight.
- Gauge is fully protected in case.
- Modular design for ease of maintenance.
- Large internal ports assure maximum flows.
- Solid cast metal backplate to ensure strength.
- Large regulator and mode selector knobs for easy adjustment.
- Designed for general patient use with vacuum regulation for 0-200 mm Hg.
- Color coded gauge indicates Low - Medium - High and Full vacuum conditions.

DISPOSABLE BACTERIAL FILTER PLUS

This disposable filter is designed to help protect the vacuum system from contamination due to aerosols or collection bottle overflow. This high efficiency bacteria filter features a hydrophobic, microporous membrane which filters air with maximum efficiency while helping to block the flow of aqueous fluids and aerosol contaminants.

FLOW SELECTOR

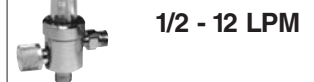

Flow Selector features:

- Give nebulizer treatments without disconnecting humidifier.
- Reduces changeover time to seconds.
- Humidifier, cannula and nebulizer hook-ups ready to go.
- No more loose tubing laying around.
- Eliminates tubing nipple adaptors (it has 2 of its own).
- Transforms flowmeter from single DISS male outlet to a multi-port device.
- Fits all flowmeters that have DISS male outlet fittings.
- Lightweight.

A NEW solution for an old problem

It's Durable - The lack of a flow tube and the durable metal body prevents breakage problems long associated with standard flowmeters.

It's Compact - The compact size allows the unit to fit into tight headwall areas and makes it virtually damage proof when other equipment is installed.

It's Accurate - The patented multi-spring technology insures accuracy at every flow setting without the need for a visible float as in thorpe tube flowmeters

It's User-Friendly - The knurled flow adjustment knob and the large, easy-to-read numbers make flow adjustment easy.

It's Versatile - The unit is available for headwall outlets as well as for ceiling mount drops. It comes in 2 different flow rates: .5 - 15/Flush and 1 - 25 lpm. Both air and oxygen models are available.

NEB BLOCK w/ FLOWMETER

Features:

- The Neb Block allows a gas outlet to simultaneously or individually provide various respiration treatments without disconnecting any tubing or equipment.
- Provides easy to use On/Off switch to quickly access oxygen flow to a hand held nebulizer or resuscitation bag.
- Reliable fixed flow orifices provide six ranges of flow for aerosol therapy or resuscitation.

SOFT-TOUCH TIMETER® FLOWMETER

The Soft-Touch Timeter® Flowmeter is durable, long-lasting and easy to maintain. Timeter® by Allied Flowmeters: Quality Plus Value.

- Flowmeter hood is made of crack-resistant polycarbonate
- Dual tapered metering tube provides outstanding accuracy
- Easier readability on the 0-5 lpm range
- Steel float eliminates sticking caused by static electricity
- Nickel-plated solid brass body provides high durability and long life
- Larger, easier to grip Soft-Touch knob

RESPIROMETERS

(RUBBER PROTECTORS ON NEXT PAGE)

MARK 8

For measurement of minute volumes as well as tidal volumes. Two dials. Small dial records 0-1 liter. Large dial 0-100 liters.

Used Respirometers

Fully Serviced, Cleaned, Oiled and Calibrated

1 Year Warranty

Order #2799\$1150
(Case included)

MARK 14

Specially suited for the measurement of tidal volumes and may also be used for measurement of minute volumes. Two dials. Small dial records 0-10 liters. Large dial records 0-1 liter.

HALOSCALE STANDARD

The original design of Haloscale Respirometer incorporating concentric dials and an enlarged face for improved readability. Equally convenient for measuring both tidal and minute volumes. Large 57 mm dial diameter. Red/black hands and black scales on a white background with yellow highlight ring. Two concentric outer dials. First dial records 0-1 liter. Second dial records 0-100 liters.

ORDER #	RESPIROMETERS DESCRIPTION	PRICE
2750.....	Mark 8 Respirometer.....	\$1705.00

2763.....	Mark 14 Respirometer.....	1799.00
2772.....	Haloscale Standard.....	1849.00

All respirometers come with a standard zippered carrying case, two metal adapters, and harness. Spiro-Guards and extra large carrying cases are optional.

MARK 20

Discontinued Model
NEW!

Same as Mark 8 but has concentric dials and enlarged face for improved readability. Two concentric dials. White dial reads 0-1 liter. Yellow dial records 0-100 liters.

Part # 2758.. \$1450.00

ELECTRONIC DIGITAL RESPIROMETER

A respirometer long overdue in this modern electronic age

ANESTHESIA ASSOCIATES

Shown separated with optional cable # 296

MODEL 295 DIGITAL RESPIROMETER IS AN ELECTRONIC VERSION OF THE MECHANICAL RESPIROMETER.

IT DOES THE SAME JOB PLUS

- Easier to read
- Saving on the initial purchase and maintenance
- More reliable
- Extremely durable
- No gears, shafts, or bearings to break down in the electronic unit
- Separates for ease of patient use, sterilization and cleaning
- Made in U.S.A.

WARRANTY

All Electronic Respirometers are warranted for one year from date of purchase for defects in material and workmanship. Only factory trained and authorized repair centers should be utilized.

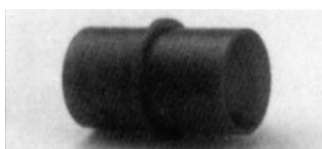

Part #		Price
295	Respirometer	\$990.00
Options		
296	6' Retractable Cable (extended length)	\$144.00
298	Carrying Case	88.00
299	Spare Flow Sensing Unit	395.00

Model 295, a two piece detachable respirometer comes complete ready to use with 9v battery and one (1) 22 mm female x 22 mm female adapter.

RESPIROMETER ADAPTERS

2700-30 Soft Plastic Adapter \$24.00

22 - 23mm x 22 - 23mm will accommodate 22mm or 23mm outlets (all respirometer inlets except Infanta)

SOUND DEADENING KITS (for Carts Above)

Anthony has developed an exclusive sound deadening system for their multiple cylinder carts, used to distribute cylinders in and around hospitals, rest homes, convalescent homes, etc. or where QUIET is essential.

These sound deadening kits include heavy-duty sound deadening matting and plastic bumper guards. This formula eliminates the rattling & clanging of steel & aluminum cylinders while in transport.

Regulator Features

- Compact Aluminum body with brass inlet chamber
- Tested to CGA Standards which include ignition testing
- Dial-in flow control
- Maximum inlet pressure 3000 psi
- Sintered filter for safety and to extend regulator life
- Internal reseating relief valve protects against overpressurization
- 1 1/2" diameter gauge
- Hose barb outlet
- OPA series designed for pediatric, homecare, hospital and emergency applications
- 2-year limited warranty
- Free rubber gauge protector

Allied All Brass Oxygen Regulators

0, .5, 1, 1.5, 2, 3, 4, 5, 6, 8, 10, 15 settings

Nipple outlet not for use with humidifier.

Order #21017.....\$109.00
for small cylinder (870)

Two high pressure outlets also.

Simple Outlet Expansion allows your hospital to use its existing outlets, and to create the number and placement of outlets needed. Simply mount a length of our rail on the wall - attach the needed outlets to the rail with our thumb screw clamp - attach a length of high-pressure hose to the block, and run it back to your existing outlet.

**That's
Simple
Outlet
Expansion!**

Kit comes with:

- 1 each 2 Foot Rail
- 2 each Mounting Hardware
- 1 each 3 Foot Hose with Wall Adapter
- 1 each Double Gas Block

RAIL SYSTEMS

- Easy external mounting - no need to shut down the unit.
- No more weight on outlets
- Shift the weight of humidifiers & suction bottles to the rail
- Eliminate overloading
- Reduce outlet leakage. Save time and money
- Increase efficiency
- Works with all piping systems
- Have outlets where you need them NOW!

CUSTOM HOSE ASSEMBLIES

REINFORCED MEDICAL HOSE

Ordering is easy as 1, 2, 3 . . . 4

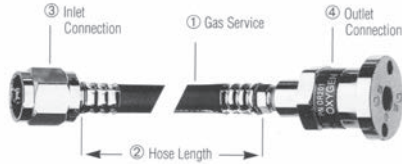

How to Order:

Western medica manufactures custom hose assemblies that conform to CGS, and NFPA standards. All assemblies are pressure-tested. Select your requirement from the charts below.

Example: OXY-024-FNN-OHF

- 1) OXY Oxygen Service
- 2) 024 24" Long
- 3) FNN Inlet Connection
- 4) OHF Outlet Connection

Evacuation Hose (purple) price may be more, depending on your adaptor

(Pricing for the above example)

FNN	17.00
OHF	69.00
Hose (.35 per inch x 24")	8.40
Assembly Charge	12.00
Total	\$106.40

Gas Service

OXY	Oxygen	Green
AIR	Medical Air	Yellow
SUC	Suction	White
N2O	Nitrous Oxide	Blue
EVC	Evacuation	Purple
CO ₂	Carbon Dioxide	Gray
NIT	Nitrogen	Black
GNR	General	Clear

Adapters pictured below may be ordered Separately.

When ordering adapters only, please specify gas.
Example: chm - oxy

All hose assemblies are 1/4" conductive (unless specified)

PRECISION MEDICAL "EASY AIR" COMPRESSOR

Hospital Grade Plug

The Easy Air 15 proves that bigger isn't always better

It's just as powerful...

No sacrificing power with the Easy/Air. We've put the same power & flow you're used to, 14 lpm at 50 psi, in a much smaller package.

It's Lightweight...

The Easy/Air weighs only 19 lbs. making it much easier to carry. It is an average of 48% lighter than comparable compressors.

It's Compact...

An average of 37% smaller than other units, it fits into areas where space is at a minimum.

It's Easy to Use...

We've eliminated the need for pressure/flow calculations with a built-in flow gauge. This unique feature allows the care-giver to set the air flow in LPM by simply dialing in the desired flow. The unit is also available with a standard pressure gauge.

It Aids Compliance...

The unique built-in elapsed time indicator aids in determining when preventative maintenance is due. This money saving feature helps compliance with JCAHO maintenance record keeping.

It's Easy to Maintain...

For the first time ever, both the external and internal compressor filters are on the outside of the cabinet making filter cleaning easier and more accessible for patients and caregivers.

It's Durable...

The ABS plastic cabinet is durable, attractive, easy-to-clean and infection control friendly.

It's Safe...

Safety is assured with the internal time delay circuit breaker which protects the unit from overheating.

SCHUCO S5000 NEBULIZER

Introducing the Schuco® S5000 Nebulizer ... Combining Schuco quality and reliability with an affordable price.

- Suppressed sound
- Enhanced airflow
- Easy to use and clean
- Our most cost-effective nebulizer

Complete with all that's needed to begin nebulizer therapy:

- Compact compressor
- Nebulizer cup
- Angled mouthpiece
- Over six feet of oxygen tubing
- Five extra compressor filters
- 2-year limited warranty

Part Number S5000\$99.00

Part #	Description	Price
PM15F	Compressor with liter per minute (lpm) gauge	\$669.00
PM15P	Compressor with 0 - 100 pressure gauge	\$669.00
PM60-1	5 Wheel Stand	\$189.00

PEAK FLOWMETERS

Mini-Wright Peak Flowmeter

Mini-Wright Peak-Flow Meters

The Standard mini-Wright is tubular, with a spring-loaded piston and a longitudinal slot through which air escapes. The scale reads from 60 to 800 liters/minute.

Low Range mini-Wright Peak-Flow Meter

This instrument was developed from the Standard mini-Wright to monitor the low range from 30 to 370 liters/minute. The pediatric patient may be encouraged if they are able to move the pointer an appreciable distance.

Part #	Description	Price
3103104	Adult Standard mini-Wright	\$45.00
281	Adult Plastic Disposable Mouthpiece/144	93.00
3104001	Low Range (Pedi) mini-Wright	45.00
281-P	Pedi Plastic Disposable Mouthpiece/144	93.00

MDI ACCESSORY by Hudson

The POKET CHAMBER is equipped with a highly sensitive silicone valve that opens easily without restricting the air flow. This one-way valve helps keep patients from accidentally blowing medication out of the chamber, and may aid patients experiencing difficulty timing their inhalation.

Product Description	Catalog #	Unit/Case	Price
Pocket Chamber Valved Aerosol Holding Chamber	1001-10	10	\$149.00

VOLDYNE® INCENTIVE SPIROMETER

Voldyne volumetric exerciser features Good - Better - Best flow window in a compact, ergonomic design with advanced, low work-of-breathing filter design and built in handle.

HUDSON MICRO MIST® NEBULIZER

The Hudson RCI MICRO MIST small volume nebulizer is designed for performance and economy. It can be used for hand-held or in-line treatments. The MICRO MIST includes the design features needed by today's respiratory care practitioners.

- Optimal particle size delivered at efficient nebulization rates
- Consistent performance at angles up to 90 degrees
- Easy-seal, threaded cap and 6cc capacity anti-spill jar to prevent leakage
- Available with 6-in. reservoir tube
- All configurations individually packaged 50 to a case

PATENT NO. RE: 33,642

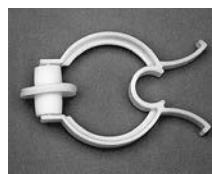

MICRO MIST Nebulizer

The Hudson RCI MICRO MIST small volume nebulizer delivers a fine, mist at angles up to 90 degrees, allowing clinicians to administer medication to patients positioned horizontally or with special treatment requirements.

With optimal particle size and efficient nebulization rates, the MICRO MIST efficiently delivers medication with minimal residual.

OXYGEN ANALYZER

Part # 473030
\$629.00

MiniOX® I Oxygen Analyzer

For spot checking oxygen concentrations, the MiniOX I Oxygen Analyzer is the preferred choice of healthcare professionals. This portable unit comes with battery life indicators, an easy-to-use thumb wheel calibration dial, and a push-button ON/OFF switch. Powered by one 9-volt battery, the MiniOX I Oxygen Analyzer provides up to 1400 hours of use.

Each MiniOX I Oxygen Analyzer is shipped ready-to-use, complete with oxygen sensor, coiled cable, tee adapter, battery and operations manual.

MiniOX® 3000 Oxygen Monitor

When your oxygen analysis calls for continuous monitoring, the MiniOx 3000 Oxygen Monitor is the obvious choice. Portable and easy to use, the MiniOx 3000 Oxygen Monitor is perfect for "in line" oxygen monitoring in such applications as hospital and home ventilators, NICU, and anesthesia delivery equipment.

The MiniOx 3000 Oxygen Monitor feature high and low oxygen concentration alarms, automatic calibration, battery life indicators with alarms, sensor/cable disconnect alarm, and an alarm verification indicator. Powered by one 9-volt battery, the MiniOx 3000 Oxygen Monitor provides up to 1500 hours of use.

Each MiniOx 3000 Oxygen Monitor is shipped ready-to-use, complete with oxygen sensor, coiled cable, tee adapter, battery and operations manual.

Part # 814365.....\$979.00

DIGIT® FINGER OXIMETER

The Digit® Finger Oximeter is a Pulse Oximeter and Sensor in one unit providing fast, reliable SpO₂, pulse rate and pulse strength measurements on patients from pediatric to adult. Its pocket-size with a large LED Display, one button keypad and auto power shutdown after 8 seconds when not in use, makes it ideal for emergency, hospital or clinical environments, or for home use.

LARGE VOLUME NEBULIZERS

AQUATHERM® External Heater

- Simple, reliable, and durable heater
- Provides aerosol temperatures between 35°C and 38°C*
- Sold individually

Cat No. 048-91 \$549.00

*As measured at the nebulizer elbow @ 8 LPM and full air entrainment. A 9 - 10°C temperature drop will occur at the end of a 1.8 meter hose.

AQUATHERM III® External Adjustable Electronic Heater

- Attaches onto nebulizer system to provide heated aerosol
- Adjustable aerosol temperatures to meet patient needs with a sensitive temperature controller
- Sold individually

Cat No. 050-14 \$896.00

Large Volume Nebulizer

- Disposable nebulizer, designed to deliver humidified gas in concentrations ranging from 28% to 98%
- Lightweight, easy to use
- Bright yellow, Venturi-style entrainment ring with incremental dial for setting oxygen concentrations
- Polypropylene jar holds up to 500cc sterile water
- Clearly marked water levels
- Individually packaged 50 to a case

Cat No. 1770 \$299.00 cs/50

THERMAGUARD® Heater

- For use with Cat. No. 1770
- Provides continuous heated aerosol
- Illuminated power switch and adjustable temperature range with push-to-turn knob
- Sold individually

Cat No. 5705 \$969.00

LO₂ PRESSURE GAUGE (Low Pressure Alarm)

Audible and Visible Alarm When Tank Pressure Falls Below 500 PSI

The LO₂ is a Standard Pressure Gauge up to 4000 PSI for use on any tank where low pressure is a hazard or an inconvenience. For use on standard regulators – 1/4 or 1/8 inch fittings. Buzzer, Flashing Red Light, On/Off Switch and Battery Test Button helps you ensure that you are never caught off-guard.

POSEY CUFFLATOR™

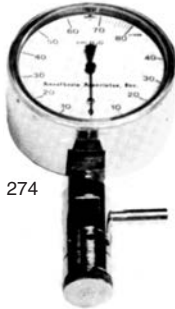

ENDOTRACHEAL TUBE INFLATOR & MANOMETER

An accurate, convenient tracheal cuff inflator and manometer. No more syringes, electricity or complicated connections needed to check cuff pressure regularly. Air vent button and inflator bulb let you vary cuff pressure quickly and easily. Clip on back allows easy positioning. Gauge shows recommended pressure range in cm H₂O.

#8199 Cufflator with instrument case \$469.00

ANESTHESIA ASSOCIATES PRESSURE MANOMETER

274

199-MAX	Gauge with Pointer	139.00
274-MAX	274 with Pointer	179.00

Manometer has range of -40 to +80 cm H₂O in a 2 1/2" diameter chrome plated case with 1/4" NPT bottom connection. Has front zero correcting screw.

199-MAX

MAX is a resetable low friction pointer to capture maximum pressure or vacuum reading

LITERMETER

Every therapist should have one for checking the accuracy of regulators and flowmeters.

- 0-2.5 lpm model in 1/4 liter increments
- 0-8 lpm model in 1/2 liter increments
- individually calibrated
- pocket clip reduces loss
- large, easy to read numbers
- calibrated at the delivery pressure to the patient (approximately atmospheric pressure)
- well-designed nipple reduces leakage
- accuracy ± 5% of full scale for 0-8 LPM (± .4 LPM)
- accuracy ± 10% of full scale for 0-2 LPM (± .25 LPM)

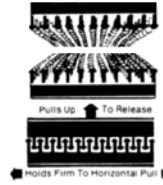

Part #	LPM	Price
1271	0-2.5	\$37.00

WESTERN MEDICA

INDUSTRIAL STRENGTH FASTENER HOLDS FIRM YET ALLOWS FOR EASY SEPARATION

Prevent equipment from falling with the self adhesive Zip Grip. Ideal for securing monitors on top of ventilators. Prevents equipment from sliding in transport. Snaps together. Snaps apart. Sticks to any surface. 1" wide.

#3710.....\$14.75/foot

OXYGEN TIMER

TIMOX features:

- Automatic timing of oxygen flow as low as .30 lpm.
- Unit easily reset to zero with tip of pen or pencil.
- 1999.9 recorded hours of oxygen flow.
- Two year warranty on unit excluding battery.

Timer Part #8050.....\$132.50
Replacement Battery Part #8066.....\$17.50

FILTERS

Pulmonary Function Filters

CBI-1501
1 1/8"

The Clear Advantage

- Bacterial Removal Efficiency (BRE): 99.99%
- Viral removal efficiency (VRE): 99.90%
- Dead Space: 54mL (Low dead space is critical for use in advanced pulmonary mechanics and diffusion testing)
- Flow Resistance: .40 cm-H₂O/L/Sec. (@ 12 L/Sec.) (3X more efficient than ATS specification)
- Flow Resistance: .16 cm-H₂O/L/Sec. (Avg. 0 - 12 L/Sec.)
- Low resistance assures compliance with ATS standards (even when saturated with water vapor)
- Built-in cardboard mouth pieces for patient comfort
- Angled input port allows the cardboard mouthpiece to be removed and replaced with a rubber "Bite Adaptor" for use in Pulmonary Diffusion Tests
- Utilizes a revolutionary "Drum" design to hold electrostatic filter media in place
- No "pins" or "fins" to obstruct flow
- Each disposable filter is individually wrapped and sealed

Neonate Size	HU5360	229.50	cs/6
Adult Resuscitator with Flow Diverter and Mask	HU5372	191.25	cs/6

BLENDERS - Precision Medical

Air/O₂

Its unique. It is the only unit available that allows the clinician to turn the bleed control to ON or OFF providing quieter operation. This feature is especially useful in the NICU and PICU.

Part #	Flow	Rate	Price
5200	High Flow	15 - 120 lpm	999.00
5300	Low Flow	3 - 30 lpm	999.00

Heliox

Its unique. It is the only free-standing pneumatic HeliO₂ blending device on the market today. The ability to turn the bleed control collar ON or OFF provides ± 3% F₁₀₂ accuracy as well as quieter operation and maximal Heliox tank durations.

Part #	Flow	%	Price
5570	High Flow	70 - 30	1795.00
5580	High Flow	80 - 20	1795.00
5470	Low Flow	70 - 30	1795.00
5480	Low Flow	80 - 20	1795.00

MDI ADAPTER

No. 1659 \$164.00

- Standard 22 mm I.D./O.D. connections for placement in-line
- Tee adapter with arrow allows therapist to direct aerosolized medication toward patient or away for "reservoir" effect
- Fits most standard canisters
- Individually packaged 50 to a case
